

KCAA Scholarship FAQs

Where did the money for the scholarships come from?

The monies were raised from the KCAA Golf Scramble through sponsorships, player registration, and other gifts designated for the scholarship.

How can participate as a player or sponsor in the next scramble?

The KCAA uses GolfStatus.com for all event information including sponsorship and player registrations. Information will be posted on KCAAonline.com.

Do I have to participate in KCAA athletics to apply for a scholarship?

Yes, only KCAA student athletes will be allowed to apply for a scholarship.

Why aren't player stats being considered on the application?

The scholarship was created to encourage students to participate in their high school athletic programs. The player "at the end of the bench who may have rarely received playing time" still contributed to the school being able to field a team.
